### Remarks:

The report is presented in EUR, because the Company will accrue turnover predominantly in EUR. However, as material consolidated assets and liabilities arise primarily in CHF, these were converted from CHF into EUR. The conversion was not made with a linear conversion rate between EUR and CHF, but individually and related to the timing, which is why considerable differences may arise between the amounts quoted in EUR and in CHF.

The foreign currency conversion for assets and liabilities is determined according to the rate at deadline, whilst the corresponding income and expense items are converted at the average foreign exchange rate during the applicable period. Adjustments of foreign currency are not identified as separate items in equity capital. The foreign currency profits and losses go into the corporate profit-and-loss account.

## Report from the Executive Board

Dear Shareholders and Friends of the company,

The 3rd quarter has seen our company continue its programme of developing and building the new strategy which we are in the process of implementing.

We would also like to announce the appointment of Alexander Koppel as Chief Financial Officer, on the 1st August 2008, he will be taking over these duties in due course and support the senior management in implementing the company's new business strategy.

Due to the current turmoil in the financial markets, we have decided to liquidate all short term financial instruments and retain cash on our books. This should assist us to act swiftly once we have identified a target we believe to be instrumental in promoting the new strategy. The management of Corporate Equity Partners AG would see the current market turmoil to be an opportunity rather than a threat to the company.
